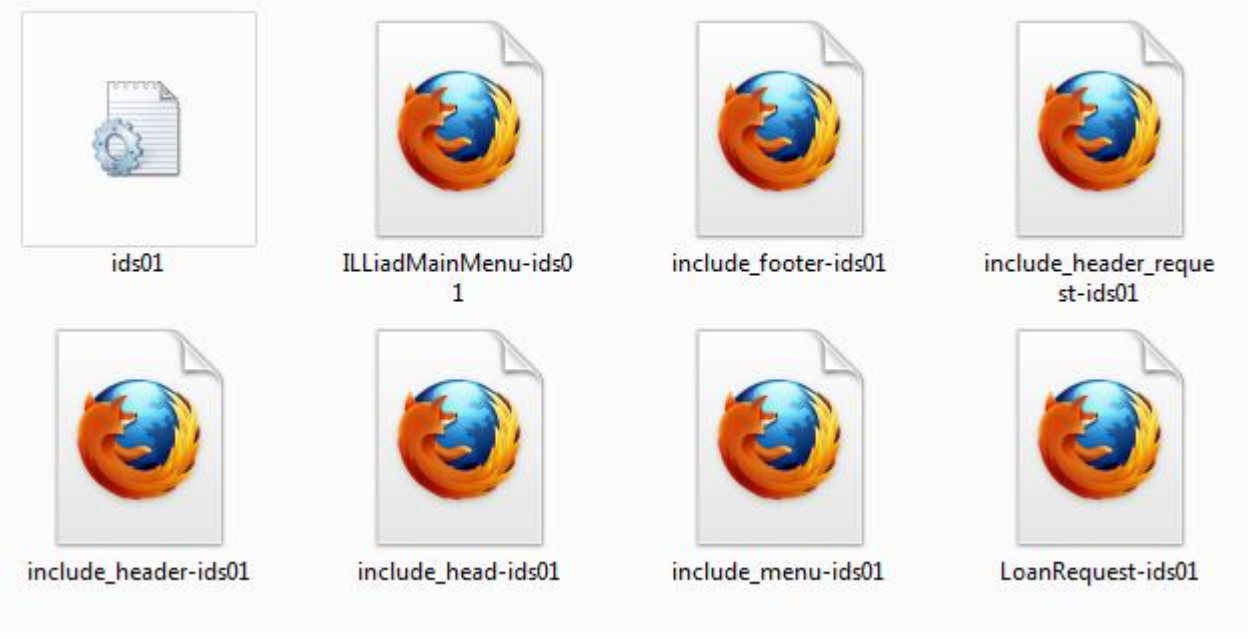
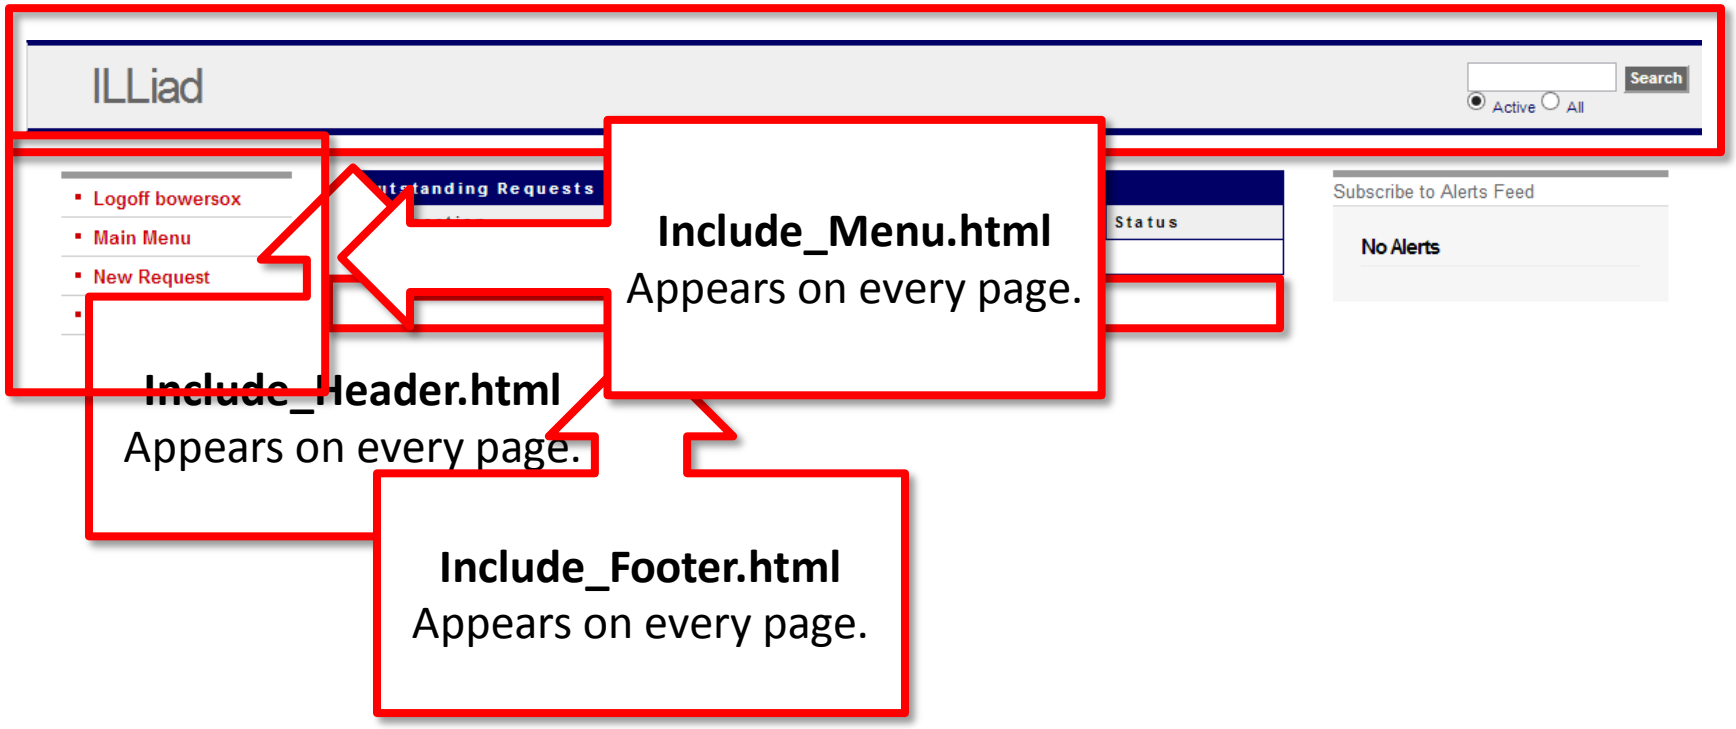
What you'll use today



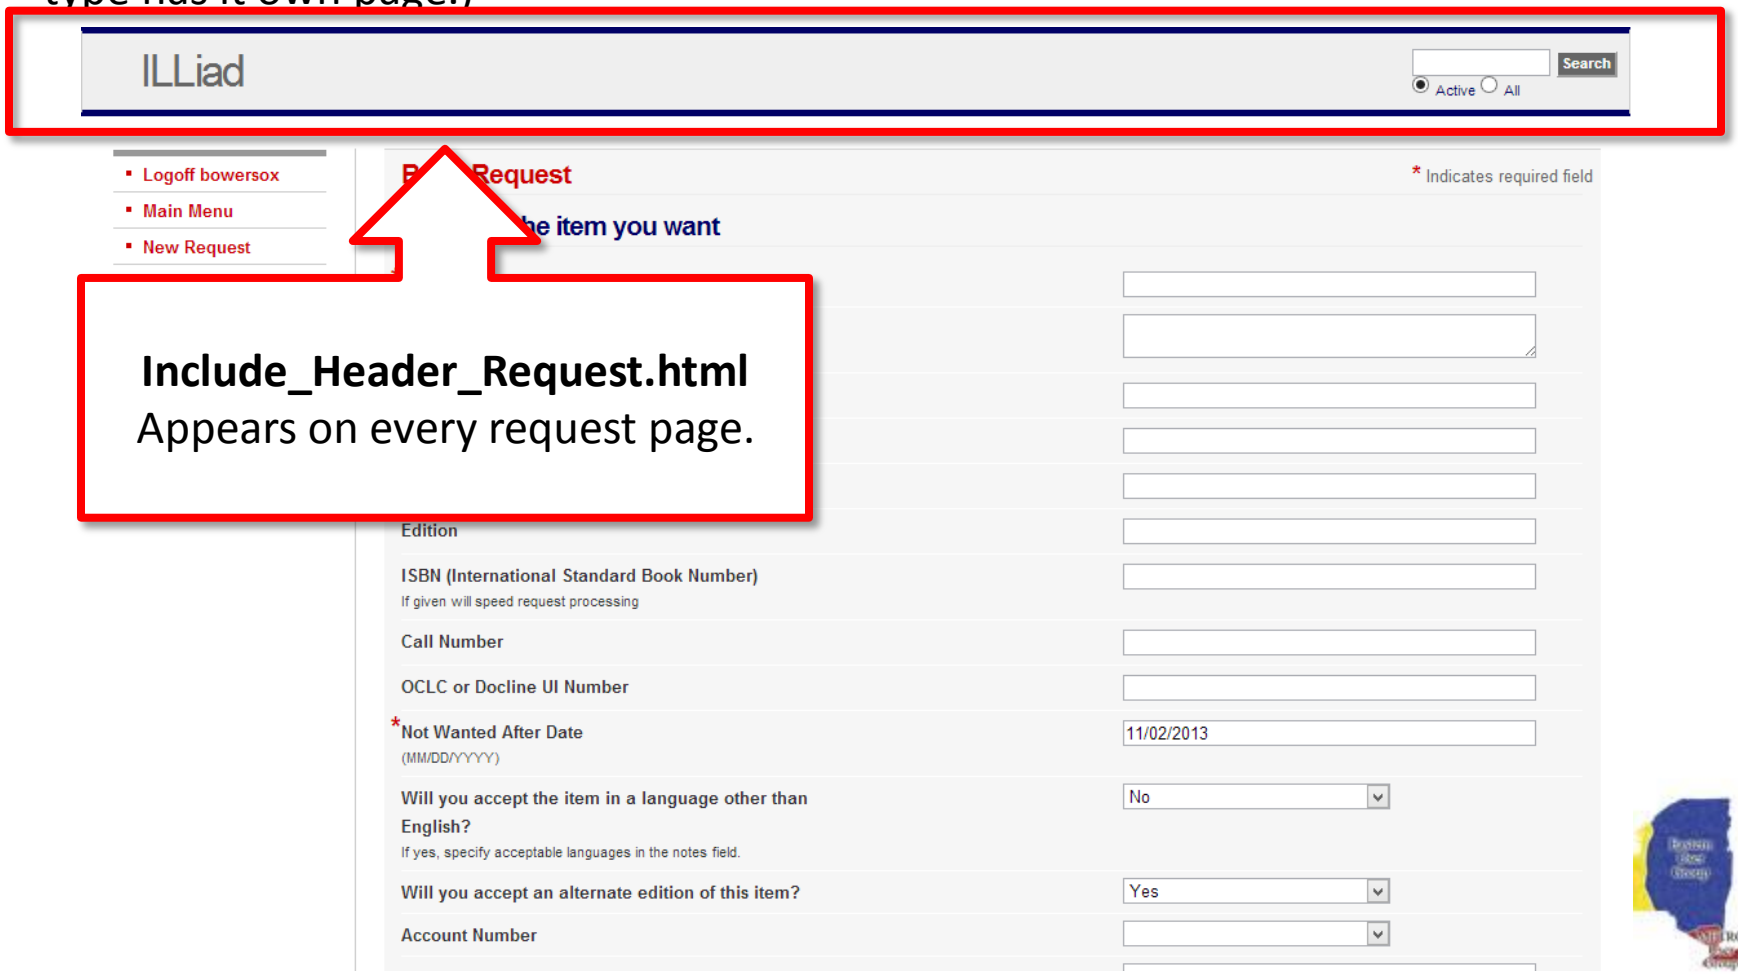
What the pages do

ILLiadMainMenu.html – What you see after you logon to the ILLiad webpages.



What the pages do

LoanRequest.html – What you see when you place a loan request. (Each request type has it own page.)



IDS PROJECT

What you can't see

Cascading Style Sheet (CSS)

- Allows you to control the color, size, font, and positioning of objects
- Looks scary, but really is super helpful!

Include_Head.html

- This loads on every page, but you don't see it.
- Adds metadata and loads your style sheet behind the scenes

IDS PROJECT

Notepad++

Follow along as we customize the header

EXAMPLE

Change the header

From this…

ILLiad

To this…

SUNY GCC | Alfred C. O'Connell LIBRARY

ILLiad Interlibrary Loan Service

Change the header

```
1  <div id="header">
2      <div id="title-name"><a href="<#ACTION action="10" form="10">">ILLiad</a></div>
3      <div id="status"><#STATUS></div>
4      <div id="search">
5          <form action="illiad.dll" name="Search" method="post">
6              <input type="hidden" name="IlliadForm" value="Search"
7              <input id="SessionID" name="SessionID" type="hidden                name=
8              <label for="SearchCriteria">
9                  <input id="SearchCriteria" name="SearchCriteria" ty              class="f
10             </label>
11             <input type="submit" name="SubmitBu
12             <div id="searchType">
13                 <input name="SearchType" type="
14                 <input name="SearchType" type="
15             </div>
16         </form>
17     </div>
18 </div>
19
```

Change the header's text:

1. Open include_header.html
2. Look for the with the id "title-name"
3. Change the text
4. Save it!

Change the header

```
195
196  /* LAYOUT - HEADER */
197  #header {background-color: #efefef; border-left: 1px solid #CCCCCC;border-right: 1px solid #CCCCCC; bc
198  #header #site-name {font: 265% Arial;letter-spacing: -.05em;margin:0px 0 0 40px;padding:3px;color:#000
199  #header #title-name {font: 265% Arial;letter-spacing: -.05em;margin:0px 0 0 40px;padding:3px;color:#00
200  #header #user-name {font: 100% Arial;margin:0px 0 0 0;padding:3px;color:#333333;border:none}
201
```

Change your background color:

1. Open your CSS file
2. Scroll down until you see the "/* LAYOUT – HEADER */" section
3. Change the background-color to #ffffff (that's internet for "White")
4. Save it!

Change the header

```
1  <div id="header">
2      <div id="title-name"><div class="logo"></div><a href="<#ACTION action="10" form="10">">ILLiad Interlib
3      <div id="status"><#STATUS></div>
4      <div id="search">
5          <form action="illiad.dll" name="S          method="post">
6              <input type="hidden" name=           value="Search" />
7              <input id="SessionID" na           pe="hidden" value="<#PARAM name="SessionID">" />
8              <label for="SearchCri
9                  <input id="SearchCrite          earchCriteria" type="text" class="f-criteria" />
10             </label>
11                                                                          it" />
12
13                                                                  ="Active" checked class="
14                                                                  ll" class="f-searchType"
15
16
17     </di
18 </div>
19
```

First, create a container for the image

1. Open include_header.html
2. Look for the with the id “title-name”
3. Insert:
4. Then, add a parameter: class=“logo”
5. The end result should be:

6. Save it!

Change the header

```
1  <div id="header">
2      <div id="title-name"><div class="logo"><img src="css/images/gcc_image.png"></div>
3      <div id="status"><#STATUS></div>
4      <div id="search">
5          <form action="illiad.dll" name="Search" method="
6              <input type="hidden" name="IlliadForm" val
7              <input id="SessionID" name="SessionID" type=          value="<#PARAM name=
8              <label for="SearchCriteria">
9                  <input
10             </label>
11             <input typ
12             <div id="
13                 <input
14                 <input
15             </div>
16         </form>
17     </div>
18 </div>
19
```

Next, insert the image into the container

1. Insert: <img>
2. Then, add a parameter: src="css/images/gcc_image.png"
3. The end result should be:
   <img src="css/images/gcc_image.png">
4. Save it!

Change the header

It worked, but it's pushing our text down ☹

ARGH!!!

Change the header

```
195
196  /* LAYOUT - HEADER */
197  #header {background-color: #ffffff; border-left: 1px solid #CCCCCC;border-right: 1px solid #CCCCCC; border-t
198  #header #site-name {font: 265% arial;letter-spacing: -.05em;margin:0px 0 0 40px;padding:3px;color:#000066;bo
199  #header #title-name {font: 265% arial;letter-spacing: -.05em;margin:0px 0 0 40px;padding:3px;color:#000066;b
200  #header #user-name {font: 100% ariel;margin:0px 0 0 0;padding:3px;color:#333333;border:none}
201  .logo {display:inline;margin-right:20px;}
202
```

To fix it, we need to give it some style

1. Open your CSS file
2. Scroll down until you see the "/* LAYOUT – HEADER */" section
3. Create a new class: .logo {}
4. Give it parameters: display:inline;margin-right:20px;
5. The end result should be:
   .logo {display:inline;margin-right:20px;}
6. Save it!
