About IDS Project

The Information Delivery Services (IDS) Project is a mutually supportive resource-sharing cooperative within New York State whose members include public and private academic libraries, the New York Public Library, and the New York State Library (view a list of current members). The Project is based on a strong sense of community among its members and a unified collection perspective. The major goal of the Project is to continually implement and objectively evaluate innovative resource-sharing strategies, policies and procedures that will optimize mutual access to the information resources of all IDS Project libraries.
